## PRESIDENT'S MESSAGE

Well, here we are in a New Year. Hope I can do better this year than I did last year. I made a big mistake in my President's Message last month. I said Colorado was the first state to have two chapters. I don't know what I was thinking about, because Texas has had two chapters for a couple of years or more. So to the two chapters in Texas, (1) The Lone Star Chapter, and (2) The Alamo Chapter, I owe an apology to you; I'm very sorry I made that error.

To the presidents of all the chapters of The Falcon Club, January is the month that your secretary is required to send a current roster of all your members to the national secretary. Her address is in the front of the newsletter. All members of a chapter are required to be members of the national.

I would like to see all of us work hard this year for the betterment of the FCA. Think about if each one of us got one member each for the club. We can do this by telling people about the club, by leaving a "Did You Know" card on the windshield of a car — there are many ways to get new members if you want to work at it. If you need any FCA windshield cards, just drop us a line at the club address.

I think it would be nice to see some spring and fall regional meets this year. There are already three meets in the planning stages that I know about. If you need more information on a regional meet, just drop me a line or give me a call.

C-H-A-P-T-E-R-S: Be sure to use the newsletter to let your members and others in your area know about your meets. There are new members joining the FCA all year long and they can only attend if you let them know about your meets.

Hoping we all can have another happy and successful year in The Falcon Club together.

Roy E. Sword  
President, FCA

## EDITOR'S NOTE

We wish you a Happy New Year and ask for your continued support in 1986 in making "your" newsletter a success. To help us, please show your club membership number on all correspondence to the Editor, and send all ads and articles to our Searcy, AR address instead of the club post office box in Jacksonville. This will avoid a delay in our receiving them.

## MEET REPORTS

### *The Gateway Chapter*

The November meeting of the Gateway Chapter was held on Sunday, November 24th at the Bonanza Sirloin Pit in St. Charles, MO. There were 18 members present. A report was given on the regional to be held in May. Slides from the national meet were shown. A quiz was given on antique cars with prizes going to the members with the most questions right. Plans were finalized for a Christmas party on December 29 at the Bonanza Sirloin Pit. The Ford dealer in St. Charles asked members if they could display their cars for his 60th anniversary celebration.

### *The Southeast Chapter*

On Thursday night, November 14, the officers met with our Regional Director, Steve Springer of Charlotte, NC. The meeting was held at the Shoney's Restaurant in Conyers, GA. After dinner, we discussed the possibility of hosting a regional meet sometime in the spring of 1986. After talking about what it would take to put on a show like this, we decided to vote on it at our next officers' meeting. Thanks, Steve, we enjoyed your visit and help.

On Monday night, December 2, we had our monthly officers' meeting at the home of Wanda and Gary Goddard. We had 14 members attending this meeting. The main topic at this meeting was the regional meet in the spring. We voted to have this meet May 16, 17, and 18 at the Marriott at Windy Hill Road in Marietta, GA. So start making plans to attend this spring meet. Look for more details in next month's *The Falcon News*.

### *The Founder's Chapter*

The Founder's Chapter had a Christmas party at the home of Roy and Pat Sword in Jacksonville. 21 members were present for a delicious meal. Pat Sword gave a report on the success of the fall Regional Meet in Hot Springs. White elephant gifts were exchanged by members and everyone enjoyed an evening of fun and fellowship.

### Consider a Summer 1986 "Escape" to Wisconsin!

Your 1986 National FCA Convention will be held at the Guest House Inn in Appleton, Wisconsin on August 14-16, 1986. It's not too soon to start making your "Escape to Wisconsin" plans — the meet is only a little over 6 months away now!

The North Central Falconeers will be your official hosts, but all kinds of other high quality attractions and recreational opportunities await you while you're in our fine state for the meet. Think about leaving early for the convention, or staying on for a few days longer to sample the best Wisconsin has to offer!

For a start, call the special toll-free number and ask for the new Division of Tourism 72-page full color publication — *Wisconsin / Spring and Summer Escapes*. Phone 1-800-ESCAPES.

We need your thoughts and suggestions. There's a high degree of interest in having one or more Falcon seminars like those conducted at the 1984 show in St. Louis. Is there anyone out there who would like to suggest a subject, speaker or whatever? Write to Gary Fuerst, President, North Central Falconeers, 1619 N. Charlotte St., Appleton, WI 54911 or call (414) 731-2708. We hope to see a large, best ever turnout this August in Appleton. We'd love to have you.

### TECHNICAL TIPS

*From Phil Green, member 1495*

1. I bought my '64 Falcon in November '83, and noticed the next day of ownership that the automatic transmission would not shift into second gear until the transmission had warmed up. Once warmed up, the transmission operated just fine. It was obvious that something had to be done. I started by replacing the transmission filter and all the fluid. This provided no improvement to the problem. I then decided to talk to a friend of mine who is a Chevrolet automatic transmission specialist. He indicated that the problem was that the seals were old and hard and suggested that I put a half to a full pint of brake fluid (DOT 3) into the transmission. Apparently the brake fluid soaks into the seals and makes them swell and become more pliable. The next day and thereafter the transmission shifted like a champ!

There are some things that someone attempting this should be aware of: 1) This is only a treatment for seal problems. If the seals are too far gone, this may not help at all. 2) The treatment can cause seals to swell too much and cause them to split. If this happens, rebuilding the transmission is the only course of action. This can occur if the seals are fairly new and/or too much brake fluid has

been added. 3) The mechanic said that this fix could result in up to 10 to 20 thousand extra miles before rebuilding is required (so far I have gotten 2 good years and am still going strong).

2. I had trouble in locating the left inner tierod end for an early model '64 Falcon V8 with powersteering. While on a trip to California, I checked out an auto parts store. The clerk told me of a person, Mark Lumpkins, who buys and sells New Old Stock (NOS) front end parts and other small mechanical parts (eg. fuel pumps, U-joints, etc.) who might be able to help me out. That evening I stopped by and discovered that he has been doing this part time and had accumulated a large inventory of NOS parts that fills three large barns. Needless to say, he had my part in stock. This person would be a good source of hard-to-find NOS parts for anyone trying to restore any early type of car. Mark's inventory includes all makes and models of cars dating back to the 1930's. He operates from his home and you can get in touch with him by calling (619) 789-4258 after 6:00 p.m., West Coast time, or by writing your needs with an enclosed self-addressed stamped envelope. He sends everything C.O.D. His address is: 1745 Walnut Street, Ramona, CA 92065.

## TECHNICAL HELP WANTED

I have been a Falcon Club of America member for about 10 months and I enjoy the good articles and technical information in the newsletter. I am now seeking some information. I have a 1965 Falcon Futura 2-door hardtop with 200 cubic inch 6 cylinder and standard 3-speed transmission. This winter I plan on installing a 289 V-8. If anyone has made this conversion or knows information such as motor mounts, clutch linkage or transmission mount, I would appreciate hearing from you.
